

Science:

In Science, we will learn about the famous Scientists and their discoveries and achievements, along with conducting investigations.

Maths:

We are focussing on statistics, fractions and time. We will also continue to investigate multiplication and division alongside our times table rock star challenge!

English:

We will continue to work on key skills such as spelling, handwriting and reading, but will also write a persuasive letter, explain how to survive in the rainforest, investigate poetry and write instructions.

Geography:

We are going to learn about rainforests, the equator, deforestation, the layers of a rainforest and the animals who live

Art:

. This term we will sketch and colour drawings of insects, create mosaics and make clay models!

PE:

We are going to be focussing on gymnastics and rugby this term!

PSHE

We will think about team work, goals and dreams.

The rainforest

ICT:

In ICT, we will develop our coding skills using J2Code to create algorithms. We will also learn how to debug simple codes.

French:

In French, we will focus on the unit 'all about me' and we will recap basic conversation skills.

RE:

For the next two terms we will investigate why some stories are special, sharing Christian, Islamic and Jewish tales and religious texts.
